at Weston Nurseries

Sliding scale \$30–\$50–\$70

**Join the workshops! Scan or go to nofamass.org/events
Invest – Care – Measure – Regenerate**

For Landscape Professionals and Home Gardeners. Explore organic land care practices in a non-agricultural setting. Dive deep into the elements of soil health, how to measure these indicators, as well as how non-toxic and even regenerative planting and care techniques can be incorporated into home and business settings.

Workshops are lead by the Northeast Organic Farming Association / Massachusetts Chapter with instructors from both locations. Supported by the Massachusetts Executive Office of Energy and Environmental Affairs
